Introduction
Chapter 1
The Causal Boundary
Part I
The Machine Anatomy
Chapter 2
The Physical Body
Chapter 3
The Cognitive Brain
Chapter 4
The Nervous System
Part II
Teaching the Machine
Chapter 5
Physical Data
Chapter 6
Policy Training
Chapter 7
Closed-Loop Evaluation
Part III
Running the Machine
Chapter 8
Sensor Perception
Chapter 9
Spatial Memory
Chapter 10
Grounded Intent
Chapter 11
Trajectory Planning
Chapter 12
Safety Enforcement
Chapter 13
Workload Placement
Part IV
Governing the Machine
Chapter 14
Supervisory Intervention
Chapter 15
Adversarial Verification
Chapter 16
Deployment Release
Chapter 17
Responsible Physical AI
Conclusion
Chapter 18
Engineering Physical AI
5 to 9 citations
10 to 19
